CLAY CITY, KY, THURSDAY; FEBRUARY 13, 1913,

NO. 7

State Boad of Equalization.

The State Board of Equaliza tion is at work at Frankfort, and has handed down an opinion in erty as reported by the assessor the railroads, anticipating a raise, have filed a protest that they should not be assessed at their fair cash value unless all other it was held that the Kentucky 165. This is some less than rekinds of property in Kentucky Highlands Railroad Company is norted last year. If we mistake likewise are assessed. To substantiate its contention the Illionis Central filed with the board officials, bankers and prominent as a decense for existing rates, crops and farm products produccitizens of sixteen counties along The rates fixed by the Commis- ed in that county last year was its line in Western Kentucky, alleging that property generally in those counties is assessed from Taylorton, seven cents a linu-27 to 70 per cent, of its fair cash dred; barrels reduced from 16 to value, and the L. & N. produced 13 cents a hundred; sand reducaffidavits, similar in their import, ed from \$1.20 to \$1.00 a ton; from all the counties it traverses. brick from Maysville reduced These facts also are alleged by from \$7.50 to \$5.50 a ton; from are not, beating Powell. They these rnilroads in their suits in Louisville reduced from \$6.50 are going back in wealth, living the Federal Court, resisting fran- to \$5.00 a ton; from Louisville, chise assessments.

Bill Day in Trouble.

One Bill Day, colored, was arrested one day last week when seen to alight from the train carrying a basket. The basket proved to have in it 4 full quarts and one half quart of liquor. The owner or owners of the liquor were somewhat disappointed at receiving the goods but failed to claim them. Day and other witnesses were recognized to appear before the Powell county grand ter man than Washington, and had jury in March.

McCreary Commutes Sentence.

When it comes to a good pardon record McCreary wins the cake. He has commuted the first death sentence this week and did this upon petition of all the Judges of the court of Appeals who said the case had come hefore them twice and that they helieved the death penalty should not be inflicted. He commuted the sentence to life imprisonment.

L. & N. Rates are Ordered Reduced.

The State Railroad Commission Sons Company against the L. & being reviewed by the Board of controlled by the L. & N., and not it was the comething over the joint hand clause governing \$12,000,000. The assessor's rerailroads can not be relied upon port also shows that the value of sion follows:

On grain from Louisville to lumber reduced from \$8.00 to \$6.00 a ton; cement reduced from 12 cents to 9 cents per hundred; bottles 17 cents a hundred; coal from Jellico reduced from \$1.65 to \$1.20.

Lincoln's Birthday.

Yesterday was Lincoln's birthday and Saturday week will be Wash ington's birthday. Lincoln's birthday is not a holiday while that of Washington's is. Nevertheless the Times believes Lincoln was a beta better love for his country, and if he didn't do more for his country it was because he didn't have the opportunity. The editor has arriv ed at this conclusion too in the face of the fact that we were reared un der strong Southern and Rebel leanings and are still that way.

Cold Weather.

Last night was the coldest of the winter so far when the ther mometer dropped to a few degreeabove zero.

Subscribe for the Times.

Powell 1s. Clark.

The valuation of taxable propthe case of E. H. Taylor, Jr., & of Clark county this year after N. Railroad Company, in which Supervisors and ints to \$11,802,over \$750,000. Why has not some of this been added to the county's wealth to gay nothing about its manufacturing products? If the Clark county farmers do raise two and three hundred dollars worth of tobacco per acre, they allove their income while Powell is living within its means and addlng a little to its wealth every year, besides being able to send several thousand collars to the Bluegrass counties to be invested in their high priced land.

Against Money and Liquor.

While instructing the grand jury Monday in thing, Jugde J. M. Benton produced that he M. Benton projounced that he will instruct, the grand jury to be empaneled in cooler, which will be the first one to be empaneled after the primary of ction in August, to thoroughly in fatigate the said election, to make the whether or not corruption was indulged in.

The Judge said he made the announcement at this time for the purpose of warning candi dates and their friends that the ase of money and whisky will not be tolerated, and if such practices are indulged in notwithstanding this warning, he will arge the grand jury to indict all offenders be they high or low, rich or poor.

Judge Bentoenis to be commended for the fearless stand he has taken in this important mater, and right thinking people will applaud his action.

He also announced that he will instruct the other grand juries in his district, in the same way. He added that there is no good rea son why a fair and honest election should not be held here and it is to be hoped that the good citizenship will assist Judge Benton in his determination to rid this, and other counties of the district of all questionable practices in future elections.—Rich mond Pantagruph.

Farm to be Sold.

W. J. Christopher and heirs will sell their old home place at Spout Spring February 25 at public sale and if not sold will be rented on that date for 12 months. This is a good farm of 200 acres and should sell for a good price.

"Wise men change their minds but fools never do," is probably a correct version of facts, but sometimes people change their mind to get office and are fooled. They get beat by some one who hasn't changed his mind and didn't get fooled.

Old newspapers for sale at this

Stubborn Corporations.

In Lexington a few weeks ago the Home 'Phone bought out the Bell 'Phone. Citizens were pleased, but it leaked out that it was n combination of the two. The rates were last week raised 25 per cent. The citizens of the city have enjoined the companies from the merger and will try to annul the sale.

At Winchester about the same time the Cumberland bought out the home 'Phone but to continue to gonge the people kept both phones agoing to collect double charges. The city council there has taken up the matter and advises patrons of the telephone to pay for but one phone. The company says they were only holding the two 'phones to make Winchester, however, are beginthat they have been stung so much and doubtless will pay for but one 'phone.

Pollard for Circuit Judge.

Owing to the continued illness of Judge D. B. Redwine, there s some talk of his resigning as Circuit Judge in the 21st district. In anticipation of his resignition, O. H. Pollard, of Lexington, an erstwhile citlzen of Jackson, is being boosted by his Lexington friends for the place in case Judge Redwine does resign. Why not Judge J. B. White and Hugh Riddell, of Irvine, or some other good lawyer, permanent residents of the district be first considered. They most assuredly are qualified and deserving.

For Assessor.

In this issue of the Times appears the announcement of S. A. Easter for Assessor of Powell county. Mr. Easter is a worthy young man and fully competent to fulfill the duties of the office to which he aspires. He is true blue Democrat and comes of that stock who have never been known to falter. Democrats all over the county will do well to fully consider his claims before casting their vote in the August primary.

Celebrates 86 Anniversary.

Mrs. E. J Wallace celebrated her 86th anniversary at her home in Irvine February 6th She received a Post card shower on this occasion of nearly 100 post cards all expressing nothing but the very best wishes for this beloved old laready for a forty thousand dollar dy. Mr. and Mrs. Wm. Mountz, improvement. The people of Sr., the latter a sister of Mrs. Wallace were persent on this occasion ning to take the promises of the as were also her other two sisters. big corporations with salt now Mrs. John Hisle and Mrs. Wilson, of Madison county. Many other relatives were present and all joined in wishing her to round out the century mark and enjoy the blessing of health to the end.

ANNOUNCEMENT.

We are authorized to announce S. A Easter as candidate for Assessor of Powell counts, subject to the action of the Democratic primary election in

Few persons realize the farreaching importance of the fact that the United States will soon have an income tax on its statutes.

First of all it means that millionaires wall, for the first time since this nation has stood, bear a fair proportion of the burden of taxation.

It is estimated that one hundred million dollars will be raised annually by taxing incomes This will mean that that amount of taxation is to be taken off of the things that the people must have in order to live, and placed on wealth.

Under the system of protection as played in this country, nearly every penny of the money neces sary to run the government, maintain the army and unvy, construct public buildings, etc., is raised by taxing the things the people eat. wear and use. The only thing that protection does not tax is wealth. A man with a fortune of ten million dollars has not been required to pay a single penny of tax to the national government. This seems almost unbelievable, but it istrue The man working on the section for one dollar and fifty cents per day, with a fam.ly of five children is at the present time actually contributing more to run the national government than the millionaire bachelor who is too proud to marry and raise a family.

The United States of America is practically the only one of the great nations where such a coudition exists. Nearly every first class uation on earth levies either an income tax or an inheritance tax. We have ueither.

Why have we never been able to place an income tax on the statute books, is the question that naturally arises. Here is the answer: High protectionists have prevented the passage of an income tax law, because they knew that the more money the government collected from taxing incomes, the less excuse there would be for a tariff tax. To take protection away from the tariff trusts is to interfere with their monopolies. And how could the tariff trusts gouge consumers without having monopolies of American markets?

It was 20 years ago under the leadership of William Jennings Bryan and William L. Wilson of West Virginia that the Democrats placed an income tax pro-

all incomes exceeding \$4,000 at ago. They knew that Bradley 2%. The Supreme Court of the would do their bidding, and that United States, however, in obe- Beckham could not, under any dience to the wishes to the bloat- circumstances, be induced to do ed hord holders, wealthy male. 80. factors of the country, kindly declared that law unconstitutional, and so, the Constitution having Court can no longer interfere. It session, which will be called eith-3% on incomes over \$10,000 per annum, 4% on incomes of \$50,000 per annum, and 5% on all incomes of over \$100,000 per annum.

The Standard Oil Company has just declared a dividend of \$40,-000,000, of which Mr. Rockefeller receives \$10,000,000. This however, is only a small part of his entire income, and there is no reason why Mr. Rockefeller should not contribute 5% of his money for running the Government.

Ollie James a few years ago introin one state into local option their farming interests. verritory of another State. That ing and was passed, Senator-elect to our neighborhood. James lined up with the whiskey men. This shows how much of with the whisky men. Such men are undeserving of support. They tamily but wish them well i would annul all of our local op. their new home tion laws if they could

is why the whisky men worked so weeks.

Merchants at Kimbrell and Sams, Estill county, who receive been amended, the Supreme their freight at this place are now paying twenty-five cents per is quite certain that an income hundred for hauling. Another tax will be passed in the extra conclusive instance in which bid roads come high. With a turner in March or early in April. It pike from Clay City to Irvine the is the belief that not only will all same hauling could be done for incomes exceeding \$5,000 per year one-third the maney and the ones be taxed 2%, but that the rate that do the hauling make double will increase on those having ex- the money. But then if we had cessively large incomes. For in. a good pike between the two stance, the tax will probably be towns there would be no stores on the road, because then the coun-

AGRICULTURAL EXTENSION.

Soil Fertility and Farm Management Problems.

Two things which probably hinder the success of farmers more than any others are the economical maintenance of soil fertility, and right farm management. Only by building up and by keeping up the fertility of the soil can large yields be continuously produced, but after this has been accomplished good furm management must ke practiced in order to realize a good net profit upon one's investment

Every farmer should know, to

begin with, what amounts of the plant food elements nitrogen. phosphorus and potassium are in his soil. All the other essential plant food elements are present in Kentucky soils in sufficient quantitles for maximum yields of crops. These data can be furnished by the Kentucky Agricul tural Experiment Station. The analysis of the typical soil areas of Kentucky are now on file at the Experiment Station, and if relatively accurate data cannot be furnished for any particular the Division of Extension. farm of this State, instructions for the collection of soil for analysis will be furnished upon application to Dr. A. M. Peter, Head of the Division of Soil Chemstry of the Experiment Station, and free report will follow. Samples of soil 10 be analyzed should always be taken ac cording to instructions. Wherh er not have is needed to correct soil acidity can be very reading determined by experiment upon a small not in connection with the sowing of red clover. The plowed surface of a soil should contain not less than 8,000 poinds of nitrogen, 2,500 pounds of phosphorous, and 16,000 pounds scribed property, or so much thereof potassium in order that, in a of, as may be necessary to satisfy favorable season and under good the taxes due thereon, for the year tillage, it may be made to produce a maximum crop of corn, est and cos. wheat or oats. The soils of Kentucky, except in river bottoms and peat swamps, contain an abundance of potassium. If soil does not show an analysis at least up to the above in nitrogen, phosphorus and potassium, steps should be taken to add, economically, these elements to a content necessary for large production, and raw ground limestone should be applied if experiment cost. with red clover shows that the soil needs limestone.

After normal fertility has been secured, it should be maintained, and one great factor in this maintenance is good crop rotation. Crop rotations may vary in grain farming from those used in live stock farming, but in either case legume crops such as clover, alfalfa, cow peas, soy beans, and sweet clover must be used to maintain the supply of nitrogen. cost, In stock farming about every third crop should be a legume Little, amt. penalty and cost 10.80 crop, and in grain farming about every seco. d crop. By establishing crop rotations as above indicated and by turning under suflicient manure and green crops to keep up the nitrogen content, the fertility of the soil can be kept up, if in addition phosphorus in some form to be added from time to time in quantities corresponding to those removed from the soil in cereal and forage

crops and live stock. The basis for such computation will be furnished upon application to the Experiment Station.

The location of farm buildings with reference to various parts of the farm and to each other, the laying out of fields and fences, the establishing of drainage systems, the working out of crop rotations, forms for farm accounting, etc., are among the problems of farm management which bear a strong relation to the success or the failure of the owner of a farm.

The Division of Extension of the Kentucky Agricultural Experiment Station has decided to offer assistance, as far as may be possible, to farmers of the State in solving problems of soil fertil ity, in establishing cropping systems upon the whole or a part of farms, in the production of legume crops, and in working out farm management problems. This assistance will be offered through correspondence, or when possible by visitation, without expense to owners. Applications for such assistance may be made to T. R. Bryant, Supt. of

> H. B. Hendrick, Assistant Agronomist.

Whiner-"I have only one friend on earth—my dog." Optimistic Advisor-"Why don't you get another dog?"

By the use of drain tile you can turn that low, wet, useless, swampy field into the most productive spot on your farm. Good tile. properly placed, not only carries off surplus water, it admits air to the soil and makes it easy to work. It improves any soil. The increace in the value of the land is many 5.48 times the cost of the tile The first year's crop from tiled land pays for it. Any body can do the work successfully. Write for particulars or cell at our plant.

Bad Spells

"I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time, I was getting worse. I had bad spells, that lasted from 7 to 28 days. In one week, after I gave Cardul a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 5 weary years | Cardui relieved me, when everything else failed."

If you are weak and ailing, think what it would mean, to you, to recover as quickly as Mrs. Navy did. For more than 50 years, this purely vegetable, tonic remedy, for women, has been used by thousands of weak and alling sufferers. They found it of real value in relieving their aches and pains. Why suffer longer? A remedy that has relieved and helped so many, is ready, at the nearest drug store, for use, at once, by you. Try it, today.
